

The simplest remedy for indigestion, constipation, biliousness and the many ailments arising from a disordered stomach, liver or bowels is **Five Cent Tablets**. They have accomplished wonders and their timely use removes the necessity of calling a physician for many trivial ills that beset mankind. They go straight to the seat of the trouble, relieve the distress, cleanse and cure the affected parts, and give the system a general toning up. The Five Cent packet is enough for an ordinary course. The family bottle, 60 cents, contains a supply for a year. All drug stores sell them.

Caracas, Venezuela, Nov. 29.—The Colombian invaders under Generals Garbiras and Morales, after several defeats, were obliged to recross the frontier Nov. 25. They left numerous prisoners in the hands of the Venezuelan troops, among them Chief of Staff Briceño, who was abandoned in a wounded condition, and a quantity of ammunition.

WEAK LUNGS

Weak lungs are mostly due to a neglected cough. Only a small percent of the millions who have consumption inherit it. A slight cold, a tickling or hacking cough is the beginning, and after it has reached a certain advanced stage there is no ending except the grave.

Any case of consumption that is curable; that is, any one having consumption whose family or friends still hold on to a ray of hope, may take comfort in the knowledge of the fact that One Minute Cough Cure will give instant relief and finally cure.

This famous remedy does not pass immediately into the stomach, but lingers long in the throat, chest and lungs, producing the following results:

- 1) Relieves the cough.
- 2) Makes the breathing easy.
- 3) Cuts out the phlegm.
- 4) Draws out the inflammation.
- 5) Kills the germs (microbes) of disease.
- 6) Strengthens the mucous membrane.
- 7) Clears the head.
- 8) Relieves the feverish conditions.
- 9) Removes every cause of the cough and the strain on the lungs.
- 10) Enables the lungs to contribute pure, life-giving and life-sustaining oxygen to the blood. Cures Croup and all Cough, Lung and Bronchial Affections.

CONGRESS will convene for the short session next week. The first thing of interest will be the president's message.

The teachers association adjourned this afternoon. We want them to understand that they have a standing invitation to come again.

JOS. H. SHEA spoke well in his remarks before the teachers when he said that the needs of the common schools should be better provided before thinking of a new normal school. That is the position the taxpayers are taking. Since a new normal school is not needed the taxpayers do not want the legislature to vote an appropriation of \$200,000 or any other sum for that purpose.

Robert Mantell.

A number one attraction will be at the opera house Thursday night, Nov. 4. Robert Mantell, the famous actor, will be here on that date in "The Daguer and the Cross."

C. M. Mitchell was here from Bedford today.

Allen Swope went to Crothersville this forenoon.

The W. F. Peter Drug Co., has a unique transparency in their window representing a bottle of Vinol with a label reading "Home of Vinol." This means that anyone may be perfectly at home or free to ask Mr. Peter any questions he or she may desire about this popular medicine.

They also have a very attractive window display for the same preparation. A friend jokingly asked Mr. Peter if he were now selling fish. His reply was "No, but as my best seller is a product from fish, I think that display very appropriate for Vinol. There is a difference in fish, however. If you don't like Vinol, you get your money back."

Sure of Applause.

That the theatrical clique is not confined to playhouses was demonstrated beyond all shadow of doubt to the teacher who was drilling the pupils for the exercises in one of the public schools.

The unresponsive bit of femininity over whom the amateur "coach" worked rejoiced in the name of Sarah.

When Sarah began to talk, all her vocal organs took joyful holiday and retired in favor of her nose. In vain the teacher begged and implored. Sarah still clung to her monotone. Then the teacher threatened.

"Sarah," she said, "if you don't try to do better you will fail utterly, and then how will you feel?"

"Oh, they'll applaud me, Miss Brown," returned Sarah easily. "My mother is going to give my little brother Andy 10 cents, and if he don't begin clapping the minute I sit down he's going to be strapped within an inch of his life."—New York Times.

No Comparison.

"That New York girl was awful mad when I asked her if she was from Boston."

"I'll bet she wasn't half so mad as the Boston girl whom I asked if she was from New York."—Life.

TEACHERS' MEETING OVER.

A Very Successful and Profitable Meeting.

The County Teachers' Association closed a very successful meeting this afternoon about four o'clock. The attendance has been good at every session and the character of the papers and discussions were such that all are saying that the county teachers never had a more successful meeting at this season of the year than this one has been. The music and recitations gave variety to the program that all appreciated.

County Superintendent Payne has worked faithfully for the success of the meeting and his work was such that it counted. He has the educa-

tional forces of the county well in hand and each year sees advancement. The other officers of the association and committees have rendered valuable assistance.

FRIDAY EVENING

A splendid audience greeted Mrs. Emma Mont McRae Friday who delivered a very interesting and inspiring lecture. Her subject was "The Larger Life." The lecture was especially adapted to teachers and their work. She said that education is a development through which we see and enjoy life more fully. The mastery of arithmetic aids in the solution of the problems of life. The study of literature gives us a larger and truer view of life. So with other branches of study. They all tend towards development of our powers and lead to a higher degree of usefulness and happiness. The teacher who knows most may teach well, but the teacher who knows and then has true sympathy, that is experiences "the larger life," teaches best.

SATURDAY MORNING

The invocation prayer Saturday morning was by Rev. E. R. Vest, D. D.

"What and How to Present Nature Work," was discussed by Miss Margaret Finnegan. She spoke of the value of nature study, beginning with things with which the child has some general knowledge. Study both plants and animals.

"The Old and the New Education" was the subject discussed by Mrs. McRae. She said that the new was evolved from the old. The old made the new possible. The child is now made the center of the school. Every pupil holds a relation to every other pupil. Sympathetic service in the school room counts for much. Strive to keep up the interest. The new education means greater liberty for the boy, and led aright he will come to see that the greater good of others is the object to be attained.

J. H. Shea, of Seymour, gave some valuable suggestions along the line of needed school legislation. He advised that a sufficient levy be made in every township to insure at least a six month's term. He favors a uniform standard for commissioned high schools. Common schools, he said, should be better provided before taking any steps toward building a new normal school. Heating, lighting and ventilating school rooms should be given attention.

F. E. Callahan, of Medora, read a paper on "Twentieth Century Education." He sees in the future a still greater demand for college graduates as teachers. In time all will be graduates. Object will be to give greater power and more grit through education. The demand for specialists will be greater.

L. A. Ackerman led in the discussion of this paper advancing some helpful ideas.

The program of the forenoon ended with a piano solo by Miss Grace Conner.

The program for the afternoon included the following:

"Does the Course of Study Meet our Needs".....Rev. I. C. Overman.
Discussion.....William Gossman.
Vocal Solo.....Elizabeth Rinehart.
"Art and Life".....Mrs. McRae.
"A Trip to Europe".....Miss Katharine Jackson.

After the election of officers the association adjourned about 4 o'clock.

Everybody Pleased.

The play at the Opera House last night "The Royal Slave" was one of the very best of the season. The The crowd almost filled the theatre and all went away pleased. The play itself is all right and the players did their parts well.

SEYMOUR'S SHOWING.

Statistics Given out by the Census Department

The U. S. census department has just issued bulletins showing the number of factories, capital invested, salaries and wages paid etc. Seymour makes a good showing. Below is given manufacturing statistics of several cities in this section of the state and among these Seymour takes high rank.

Game Law Suggestions.

Z. T. Sweeney, Commissioner of Fisheries and Game, of Indiana, gives out the following suggestions to be made for future legislation, found in his forthcoming report:

1. The law requiring dam owners to ladder their mill dams should provide a penalty of five dollars per day for their refusal to do so.

2. The appointment of a special committee by the legislature to take under consideration the question of stream pollution and draft a bill in the light of all that can be said on both sides of the question.

3. To forbid residents as well as non-residents taking more than twenty-four game birds out of the state upon any special day.

4. A provision that thirty-six quail, plover and snipe can be killed in one day in the open season.

5. Require a license fee of one dollar from each person who owns or uses a shot gun.

6. An accurate description of the owners thereof be placed in the license.

7. The open season on ducks, brants and water fowls to be made one month shorter.

8. The open season for killing squirrels between Oct. 1 and Nov. 10 should be abandoned.

9. The legislature should provide for nature study in our public schools.

The D. A. Jennings Suit.

The D. A. Jennings damage suit from Salem, Ind., which has already attracted much attention, will be recalled in the United States court at Indianapolis Tuesday Dec. 2. The case is one of the most remarkable suits that ever came up in the courts of Indiana.

D. A. Jennings at one time was the proprietor of the Salem Democrat, that for years has been one of the leading Democratic papers in southern Indiana, and developed a tendency to attack through his paper the private character of the prominent people of the town which amounted almost to a mania. This tendency on the part of the editor got him into all kinds of trouble. He got into personal difficulties with different men of Salem, which led to his arrest on various charges, and he finally landed in jail. After a time he sold his paper and left Salem. Sometime after his departure he filed a damage suit against a score or more of prominent citizens of Salem, alleging that he was forced to leave the town and to dispose of his property at a sacrifice. Jennings wants \$50,000 damages.

About 50 witnesses in the case will go from Salem to Indianapolis Tuesday to attend the trial, and it is believed that the case will be disposed of. In the event that the case is for any reason continued an effort will be made to have it transferred to the federal court at New Albany.

To the Public.

Allow me to say a few words in praise of Chamberlain's Cough Remedy. I had a very severe cough and cold and feared I would get pneumonia, but after taking the second dose of this medicine I felt better, three bottles of it cured my cold and the pains in my chest disappeared entirely. I am most respectfully yours for health, RALPH S. MEYERS, 64-Thirty-seventh St., Wheeling, W. Va. For sale by C. W. Milhous.

Peculiar Pension Case.

Pension Commissioner Ware has unearthed a strange case of a woman's love for the army. The charge was recently made that Mrs. Ashton, of New Albany, Ind., was illegally drawing a pension. Investigation showed that Mrs. Ashton has had four husbands. All were soldiers. Her first husband died soon after the war closed, and she began drawing a pension. She soon married again and her pension was stopped. It was soon restored because of her second husband's death. She married again and her third husband died. She asked for another pension, but before it could be granted she accompanied a fourth veteran to the altar, so she gets no pension.

A FEAST THAT FAILED.

The Story of a Raccoon That Was Not Served for Breakfast.

It is within the memory of many people that the custom of schoolteachers "boarding around" was the usual thing in country districts. Although a custom which teachers seldom liked, it is doubtful if many of them had as hard a time as a young schoolmaster who described his experience in the New England Galaxy for 1817. The article was written by Leonard Apthorp, then an undergraduate of Bowdoin college. The young schoolmaster was to receive \$15 a month and his board.

From the first day I perceived that I was at board on speculation and at the mercy of a close calculation, he writes. One day the whole dinner consisted of a single dumpling, which they called a pudding, and five sausages, which in cooking shrunk to the size of pipestems. There were five of us at table.

A few days afterward, on my return from school, my eyes were delighted by the sight of an animal I had never seen before. It was a raccoon, which the young man, Jonathan, had killed and brought home in triumph. When skinned, he seemed to be one entire mass of fat and of a most delicate whiteness. I was overjoyed and went to bed early to dream of delicious steaks which the morrow would bring.

Long before daylight I heard the family stirring, and the alacrity of quick footsteps and the repeated opening and shutting of doors all gave assurance of the coming holiday.

I was soon ready for breakfast, and when seated at table I observed that the place of Jonathan was vacant.

"Where is Jonathan?" I asked.

"Gone to market," said they.

"Market? What market, pray? I did not know there was any market in these parts."

"Oh, yes," they said, "he is gone to —, about thirty miles to the southward of us."

"And what has called him up so early to go to market?"

"He is gone," said they, "to sell his raccoon."

MITCHELL'S SMALLPOX.

President of Town Board Writes Concerning the Situation.

In a letter from Henry C. Scott, president of the town board of trustees of Mitchell, concerning the smallpox situation there he says:

You folks at Seymour seem to have a wrong impression of our smallpox scare. We have no epidemic now, and only have nineteen convalescent cases at present, all under a strict guard. We are going to open our churches Sunday and schools next Monday. Of the nineteen cases we have ten that will be ready to turn out by next Tuesday and none of them are bad. I noticed your papers have been copying from the Bedford papers and I think this is spite work. They started out to give us a black eye and they have succeeded pretty well.

Yours Respectfully,
HENRY C. SCOTT.

Coal Business.

The report of the state inspector of coal mines shows that about 12,000 men are employed in 176 mines in Indiana. More coal has been mined and more money has been paid miners and their helpers than during any year since 1898. The Sullivan Union tells of two farmers in Cass township, Sullivan County, who sold the coal rights for 600 acres of land for \$35 per acre. The land cost them originally \$15 per acre.

THIRTEEN DOCTORS FAILED.

Mrs. M. A. Close, of Nebraska, Was Cured of Incipient Consumption After All Medical Aid Had Failed--Read Her Letter.

MRS. M. A. CLOSE.

Kearney, Neb., July 8, 1900.

Dr. S. B. Hartman, Columbus, Ohio:

Dear Doctor--"I desire to express to you my sincere thanks for the interest you have shown in my case, and for the timely aid and advice which has effected a cure of as bad a case of consumption as could be well imagined.

"Peruna and Manalin have done what thirteen of the best physicians in the country have failed to do. For more than three years I doctored for consumption, and spent thirteen weeks in a Pulmonary Sanitarium at Milwaukee, Wis.; but finding myself growing worse, as a last resort, I came West where I was bedfast for many weeks, and the physicians which my husband called gave no hope but said, 'She cannot possibly live more than a few days.' But thanks to Peruna, I fooled them all. In an incredibly short time after I began to take Peruna the hemorrhages stopped. I began to mend slowly at first, but the improvement became more marked, and now I can truthfully say that there is not the slightest trace of my old complaint.

"I would have written you a long time ago, but have purposely waited to see if the effect was lasting; and in conclusion I would say, God bless you and keep you with us that you may go on with your work of mercy for many years to come."—MRS. M. A. CLOSE.

P. S.—"I am going to visit friends in Wisconsin who never expected to see me alive again, so please forward mail to me at 579 Pacific street, Appleton, Wis."—M. A. C.

SMALLPOX.

Health Officers Urge Vaccination as a Preventative.

As smallpox is abroad in our state it is the duty of every citizen to do all in his power to keep the dread disease away from Seymour. Should it get a start in our city, it would paralyze business, close our schools and cause the expenditure of a vast sum of money, besides the inconvenience to the affected ones. Vaccination is the only successful way of stopping it when it comes and the only way of preventing its getting a hold. Let us profit by the experience of other cities. The secretary of the State Board of Health as well as the local authorities urge everyone in the city to be vaccinated at once and thereby escape the dread disease.

H. R. KYTE,
Sec'y City Board of Health.

Notice of Stockholders Meeting.

Notice is hereby given that the stockholders of the Seymour Home Telephone Company will meet at its office in the city of Seymour, Indiana at 10 o'clock a. m. on December 10th 1902 for the purpose of electing directors and transacting such other business as may be proper.

AN OLD COLD

Is Catarrh, and Catarrh Leads to Consumption.

The tendency of catarrh of the head is to pass downward through the bronchial tubes to the lungs. Any one who has had catarrh of the head for a year or more finds the disease gradually progressing downward. In some cases the progress is rapid, and in other cases it is slow; but sooner or later if catarrh is allowed to run, it will go to the lungs and set up the disease known as consumption. It is doubtful if consumption is ever caused by anything except catarrh.

The catarrh usually begins as a cold in the head or throat, and is neglected until it becomes chronic; then it begins to dawn on the victim that he has catarrh. Unless he is very foolish indeed he will not rest easy until the catarrh is entirely cured. Thousands pay no attention to it until it is too late.

Mrs. J. Priest, Lee, Mich., writes:—"I think there is no medicine on earth that excels Peruna. My husband won't take any other. We have tested it and it worked a great change in my son's health last spring when we thought he was going into consumption. We gave him only one bottle and he was all right. I tell everybody about how much good it has done us. My husband says he can't do without it. As for myself it saved me seven years ago from going blind. I could not see to read one word for six weeks. I thought I should surely lose my sight. I commenced taking Peruna and by the time I had taken one bottle I could see to read as well as ever. We think it is a grand medicine."—Mrs. J. Priest.

Use as Much as Needed.

If Peruna is used a cold never becomes chronic, and hence catarrh is prevented. But after catarrh has become thoroughly established Peruna will cure it, but it will take much longer.

Even in cases where catarrh has attacked the lungs and the symptoms of consumption have shown themselves, the Peruna will cure. A great many cases of genuine consumption have been cured with Peruna after the patient had been given up to die, as in the case of Mrs. Close.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

THE GOLD MINE

THE GREAT MONEY SAVERS

ABLE TO WORK AGAIN.

The man who cannot work earns no wages. Sicknes swiftly swallows his savings. For the laborer continued ill-health means at last poverty and dependence, two things which revolt his soul. To the sick laboring man it is a matter of the first importance that he regain his health, and in the surest, speediest way. Perfect and permanent health has been restored to thousands of sick, run-down men and women by the use of Dr. Pierce's Golden Medical Discovery, after doctors had altogether failed of giving any lasting benefit.

"Please accept my thanks for your wonderful medicine, 'Golden Medical Discovery,' which has brought me from the bed to a healthy man again," writes Mr. G. W. Brisco, of Abilene, Kans. "When I began taking your medicine I was run-down in health and flesh, had no appetite, had heavy pain in abdomen, headache, backache, dizziness, shortness of breath, also eyes were weak, could not do any work. Before I had tried your treatment I had taken a good deal of medicine from home doctors, but only received temporary relief. After using five bottles of 'Golden Medical Discovery' I am now able to do a good day's work and do it with ease. The relief was something that I could not describe. It has enabled me to do my work steadily ever since."

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition, and so enables the perfect digestion and assimilation of food which is the only source of physical strength. When a man is as Mr. Brisco was "run-down in health and flesh" and grows too weak to work, his condition points at once to disease of the stomach, as surely as weakness and loss of flesh are due to loss of nutrition. The first thing to do is to cure the stomach. When the stomach is made well and strong by "Golden Medical Discovery," the torpid liver becomes active, the kidneys are regulated, the heart recovers its tone, and the body is once more in perfect health.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach.

FREE. Dr. Pierce's Common Sense Medical Advisor containing more than a thousand pages is sent FREE on receipt of stamps to pay expense of mailing ONLY. Send 31 one-cent stamps for the cloth-bound volume, or 21 stamps for the book in paper covers.

BURNED TO DEATH

Shocking Death of An Aged Woman and a Young Girl.

THE DEADLY KEROSENE

Grace Davis Attempts to Start a Fire With Oil and Is Consumed In Flames.

Mrs. Sarah Bennett's Dress Came In Contact With Stove and She Burned to Death.

Lafayette, Ind., Nov. 29.—Grace Davis, the 15-year-old daughter of Melvin Davis, of Linden, was burned to death yesterday afternoon. The girl was alone in the house and a neighbor living across the street, saw smoke coming from the window of the Davis house. She investigated and found the kitchen fire inside, and in a bedroom adjoining, at the foot of the bed, found the charred body of the girl. Near the kitchen stove was a blackened and melted oil can. It is presumed the girl used oil to start a fire and the fluid exploded.

Mrs. Sarah Bennett, 81 years of age, died at New Market yesterday as a result of being burned, her clothing catching from a red hot stove. The aged woman was washing her hands and her dress touched the stove. Before help arrived she was fatally burned.

FOUL PLAY SUSPECTED

Young Huntsman's Death at Gem Arouses Investigation.

Gem, Ind., Nov. 29.—Edward Buisling was found dead yesterday about a half-mile from Gem station, Hancock county, on the farm of George Cooper, M. C. Howard, coroner, and Dr. Larimore held a post mortem which revealed a fracture at the base of the skull and a cut on the left side of the chin. With four young men from Indianapolis, Buisling was hunting Thanksgiving afternoon.

One of the party was Buisling's half-brother, William Shieldner, and Buisling was not missed until yesterday, when search was made for him. His gun was empty and was about three feet from his body. There were a number of shells in his pocket. It is believed that there was foul play. Buisling was twenty-one years old and unmarried.

Huntsman Fatally Shot

Marion, Ind., Nov. 29.—While Nathan Campbell and six others were on a hunt four miles north of here, Campbell was fatally shot. The hunters were in a thicket, when Campbell shot a rabbit. He ran to pick it up. Chas. Renbarger saw the rabbit and started to shoot, but Campbell fired first and Renbarger lowered his gun. As he did so the gun was discharged and the load struck Campbell in the back. Campbell was a wealthy farmer.

By His Own Gun.

Queensville, Ind., Nov. 29.—Charles Ray, while hunting south of here in Jennings county, accidentally shot himself in the right leg, just above the knee. It happened while he was climbing a fence with a rifle.

Officers Puzzled.

La Porte, Ind., Nov. 29.—Coroner Powell is investigating a mystery at Union Mills, this county, resulting from the finding of the body of an unknown man lying beside the track of the Grand Trunk railroad. His body was a mass of bruises, and what puzzles the officers is the manner in which he came to his death, theories of murder, suicide and accidental death being advanced. Nothing was found on the man's body to show his identity. He was well-dressed and about forty years of age. The injuries included gashes on the head, while both legs were broken.

Workman's Terrible Fall.

Richmond, Ind., Nov. 29.—Frederick Brandt, a workman employed on the construction of the new Pennsylvania railroad bridge over the Whitewater river, fell from the top of the structure yesterday and died from his injuries forty minutes later. Brandt was an iron-worker, and was across a girder between two spans and 85 feet above the river. The girder was covered with snow and Brandt slipped and fell when half way between spans.

Shredder Accidents.

North Salem, Ind., Nov. 29.—While Grant Page was operating a corn shredder, seven miles south of here, he caught his right hand in the machine and had three fingers pinched off.

Boy's Suspicious Death.

Evansville, Ind., Nov. 29.—The police are investigating the death of Jas. Keller, a ten-year-old boy, who died suddenly. It is believed his death was the result of a blow from a negro lad.

Thieves Make Clean Sweep.

Evansville, Ind., Nov. 29.—The home of Fred Decker was ransacked from top to bottom by thieves. Jewelry, money and clothes were taken.

When the SUN SHINES

On the morning dew and the birds sing their sweet songs, all Nature seems to lift a smile of reverential gratitude to the blessed Creator for making the world so beautiful. The man or woman out of harmony is out of health. Indigestion affects one's disposition as much as disease affects the mind.

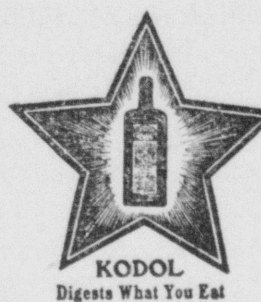

Kodol Dyspepsia Cure

Kodol cures indigestion and restores health to mind and strength to body. This new discovery cures the sick and strengthens the weak when all other remedies fail, because it rests the stomach and at the same time enables the digestive organs to transform all foods into nourishment. What more is needed?

Relieve the stomach of all nervous strain, and nourish the body—give it strength, and you lay the foundation for health. Kodol does not only relieve indigestion, dyspepsia and all stomach troubles, but it gives such strength and vigor to each individual organ of the body that the disease is thrown off—overcome entirely.

YOUR DEALER CAN SUPPLY YOU.

Bottles Only. The \$1.00 Size holds 2½ times the trial size, which sells for 50c.

I SUFFERED 20 YEARS.

I suffered with stomach trouble for 20 years, during which time I tried many remedies and spent much money, none of which did me any good. My condition gave me the blues and I despaired of ever being cured. A. F. Hine advised me to try Kodol, and while I felt it useless at first, it has entirely cured me. It is the best stomach medicine in the world. J. R. SANFORD, Orson, Pa.

KODOL SAVED MY LIFE.

For a number of years I was troubled with Dyspepsia and Indigestion. It grew into the worst form, nothing I used did me any good. Finally, seeing Kodol advertised I tried it and, after using four bottles I was entirely cured. Kodol does all that is claimed for it. I heartily recommend it to all sufferers from Dyspepsia and Indigestion. MRS. CARRIE GRANFILL, Tray, I. T.

BLOCKADED.

Every Household in Seymour Should Know How to Resist it.

The back aches because the kidneys are blocked. Help the kidneys with work. The back will ache no more. Lots of proof that Doan's Kidney Pills do this.

It's the proof, for it comes from Seymour. Capt. Carr retired veteran of the Civil War living on north Broadway says: "I used two boxes of Doan's Kidney Pills for lameless in my back and depressing aching across the loins. The first box which I procured at C. W. Milhous drug store benefited me so greatly that I brought a second and it removed the backache and banished the disagreeable aching in the top and back of my head. I can with pleasure recommend Doan's Kidney Pills for backache and lumbago for I proved their merits by my own experience."

For sale by all dealers. Price 50 cents a box. Foster & Milburn Co., Buffalo, N. Y., sole agent for the United States. Remember this name Doan's and take no substitute.

Last winter an infant child of mine had croup in a violent form," says Elder John W. Rogers, a Christian Evangelist, of Pile, Mo. "I gave her a few doses of Chamberlain's Cough Remedy and in a short time all danger was past and the child recovered."

This remedy not only cures croup, but when given as soon as the first symptoms appear, will prevent the attack. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. For sale by C. W. Milhous.

The Madison Medicine Co. owns the exclusive right to manufacture Rocky Mountain Tea. Tea sold which is not made by us is a deception. Never sold in bulk. Always packages at 35 cents. W. F. Pater Drug Co.

Jumped on a Ten Penny Nail.

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and thrust one nail entirely through her foot and a second half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Portland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment.—For sale by C. W. Milhous.

Political Prisoners Subjected to In-dignities Which Finally Lead to Determined Revolt.

Conditions Imposed by the Wardens Exhibit An Incredible Brutality.

Victoria, B. C., Nov. 27.—The steamer Olympia, which arrived yesterday from the Orient, brings a report that at the Siberian convict settlement at Alexandrovsk the convicts have gone on strike, refusing all nourishment, until they are more humanely treated. A Shanghai paper gives some horrible details of the treatment of these unfortunate, who are mostly educated men, sentenced for political offenses. The paper says, on the authority of a recent arrival from Siberia, that they are loaded with chains, herded in dark, unsanitary cells and not taken out into the open air for weeks at a time. Infectious diseases have broken out among them, but the sick have not been removed, being left to suffer in the overcrowded prison. The result is that others have been contaminated. Even the corpses of those who succumbed are left to rot among the living. The wardens treat all convicts, healthy and sick alike, with incredible brutality. The convicts carried out the strike resolutely. On the third day many lost consciousness from fasting, but no sufferings induced them to accept food. The condition of convicts in the settlement of Koktelevsk is still worse. Desperate revolts there have been quelled only after much bloodshed.
